Skills

1+ year web development experience. Primarily with React.js.

I favour SCSS or styled-components for styling responsive design, and Context API or Redux for application state management.

Experience

Personal Projects / Front-End Developer
Run Tracker: https://me-run-tracker.herokuapp.com/
Node.js, Express and MongoDB for back-end and React, Context API and styled-components front-end.
Log your jogs and get many metrics calculated to track your progress.

Browse Cities: https://pseudo-travel-app.netlify.app/
Project is built using React, Redux and SCSS. It utilizes many publicly available APIs such as TicketMaster, Google Maps and Weather for real-time events and weather.
